PROFILE

Experienced Frontend Web Developer passionate about crafting captivating and dynamic websites. Proficient in HTML, CSS, and JavaScript, I thrive on developing interactive web solutions using cutting-edge frameworks like React and Angular. My expertise lies in creating responsive designs that guarantee an exceptional user experience across diverse devices. Whether initiating projects from the ground up or enhancing existing ones, I am dedicated to producing top-tier work that consistently surpasses client expectations.

WORK EXPERIENCE

Intern

Platr.ng 2023-2023

- Collaborated with a team of backend developers to design and implement the system's features.
- Implemented responsive design principles to ensure the system was mobile-friendly
- Successfully developed the frontend of the task management system, which was well-received by users
- Followed agile development practices to deliver the project on time and within budget
- Demonstrated strong problem-solving and debugging skills

IT Support Staff

E-net CyberCafe, Keffi

2020-2022

- Provided technical support and assistance to customers at a bustling cybercafe.
- Demonstrated exceptional customer service skills while addressing inquiries and resolving technical issues.
- Collaborated effectively with a diverse clientele, from individuals seeking internet access to those requiring computer troubleshooting.
- Guided customers in using various software applications, printers, and peripherals.
- Addressed technical concerns promptly, minimizing downtime and ensuring a positive customer experience.
